

# The US elections through the eyes of TikTok

DH-500 Computational Social Media

Elisa Michelet, Ravinithesh Annapureddy, Maxime Jan

# Outline

- Motivations and research question
- Data Collection - HREC
- Data description
- Methods
- Results
- Conclusion

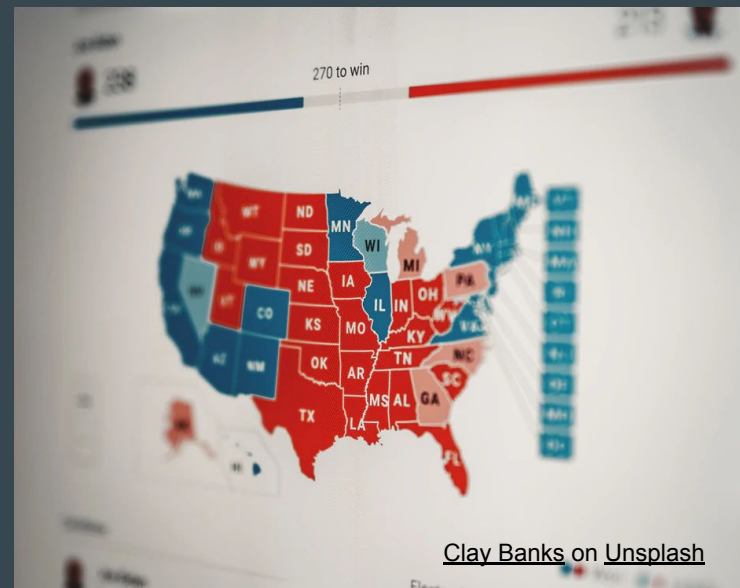

# Background & RQ

# Election and Social Media

- Message to voters
  - Posters, flyers, Newspaper and Television ads to Social Media
  - SNS gives chance to do targeted campaign.
- 
- 2008 election in US first used SNS
  - Obama greatly used twitter to talk with votes and Youtube to publish ads
  - 2016 election broke controversies
  - SNS media continues to remain the essential way to reach to millions of people including the voters

# US 2020 election

- World's oldest Democracy
- Largest Economy
- Leader of the free world
- Trumpian politics
- Era changing
  - BLM
  - COVID 19

# TikTok

- App for short videos
- Launched as Douyin in September 2016, in China
- Launched as TikTok by ByteDance in 2017 for outside China after merging Musical.ly
- With 2 Billion downloads, as of January 2021, 689 million monthly active users worldwide (DataReportal, 2021).
  - 7th platform in terms of users
  - When combined with Douyin, it will be nearly 1.3 Billion
- What Twitter did to blogging, TikTok did that for the videos.

# Growth in 2020

## TikTok user growth

Monthly active users on dates provided by the company

SOURCE: TikTok

# TikTok in the US

- Quarter of the users are teens
- 45% between the age of 20 and 40

Distribution of TikTok users in the United States as of March 2021, by age group

Source  
App Ape  
© Statista 2021

Additional Information:  
United States; App Ape; March 2021; active users only; Android users

# 2020 Election and the young

- Current affairs coupled with the pandemic crisis attracted attention of young people to the election.
- Paid political ads are banned on TikTok
- Parties or candidates did not have official presence on the platform
- But TikTok contributed to shaping the election

# Research Questions

- Research Questions
  - How did the momentum to the election culminate on TikTok over time?
  - What kind of hashtags are used together and how were they used in the videos?
  - What are the topics of discussion in the election discourse through TikTok?

# Methods

- **How did the momentum to the election culminate on TikTok over time?**
  - Hashtag appearance count in videos
- **What kind of hashtags are used together and how were they used in the videos?**
  - Hashtag occurrence and Hashtag Network analysis for hashtag community detection
- **What are the topics of discussion in the election discourse through TikTok?**
  - Videos graph partitioning and Topic modelling

# Ethic Committee Submission

# Laws Applicable

- EPFL and Swiss laws
  - EPFL (Art.36c ETH Act) authorizes processing of personal data in context of research
- GDPR
  - Information obligation (Art. 14 par. 1 GDPR)
  - 2 exceptions :
    - already informed (Art. 14 par. 5 lit. 1 GDPR)
    - information would involve a disproportionate effort (Art. 14 par. 5 lit. b GDPR)
- US privacy laws
  - No information obligation
  - States that “your content [...] may also be accessed by [...] third parties”

# Using an API to collect data

- Not explicitly authorized - not clearly forbidden by TikTok
- US : can't use automated scripts to collect information
- Swiss : not for commercial purposes

**TikTokApi 3.9.9**

```
pip install TikTokApi
```

# Inferring new data

Creation of sensitive data

# Data Collection

Select Hashtags

- #Biden2020 (13.1B)
- #biden (9.3B)
- #joebiden (2.8B)
- #trumpout (19.9M)
- #democrat (4.0B)
- #voteblue (1.8B)

Query for videos

- #Trump2020 (22.3B)
- #trump (7.2B)
- #donaldtrump (5.5B)
- #maga (5.2B)
- #republican (6.6B)
- #votered (218.3M)

Store metadata after hashing

- #election2020 (2.7B)
- #2020election (708.1M)
- #trumpvsbiden (131.7M)
- #bidenvstrump (35.4M)

# What's inside the Data?

5232 unique videos

video_id	hashtags	date
-49374569309301	[aussie, biden2020, bidenharris2020, straya]	2020-11-07 01:51:07
28378852204966	[biden, biden2020, election2020, fyp, fürdich]	2020-11-06 18:11:03
-76166906306051	[biden2020, fyp]	2020-10-19 18:41:40

# RQ 1

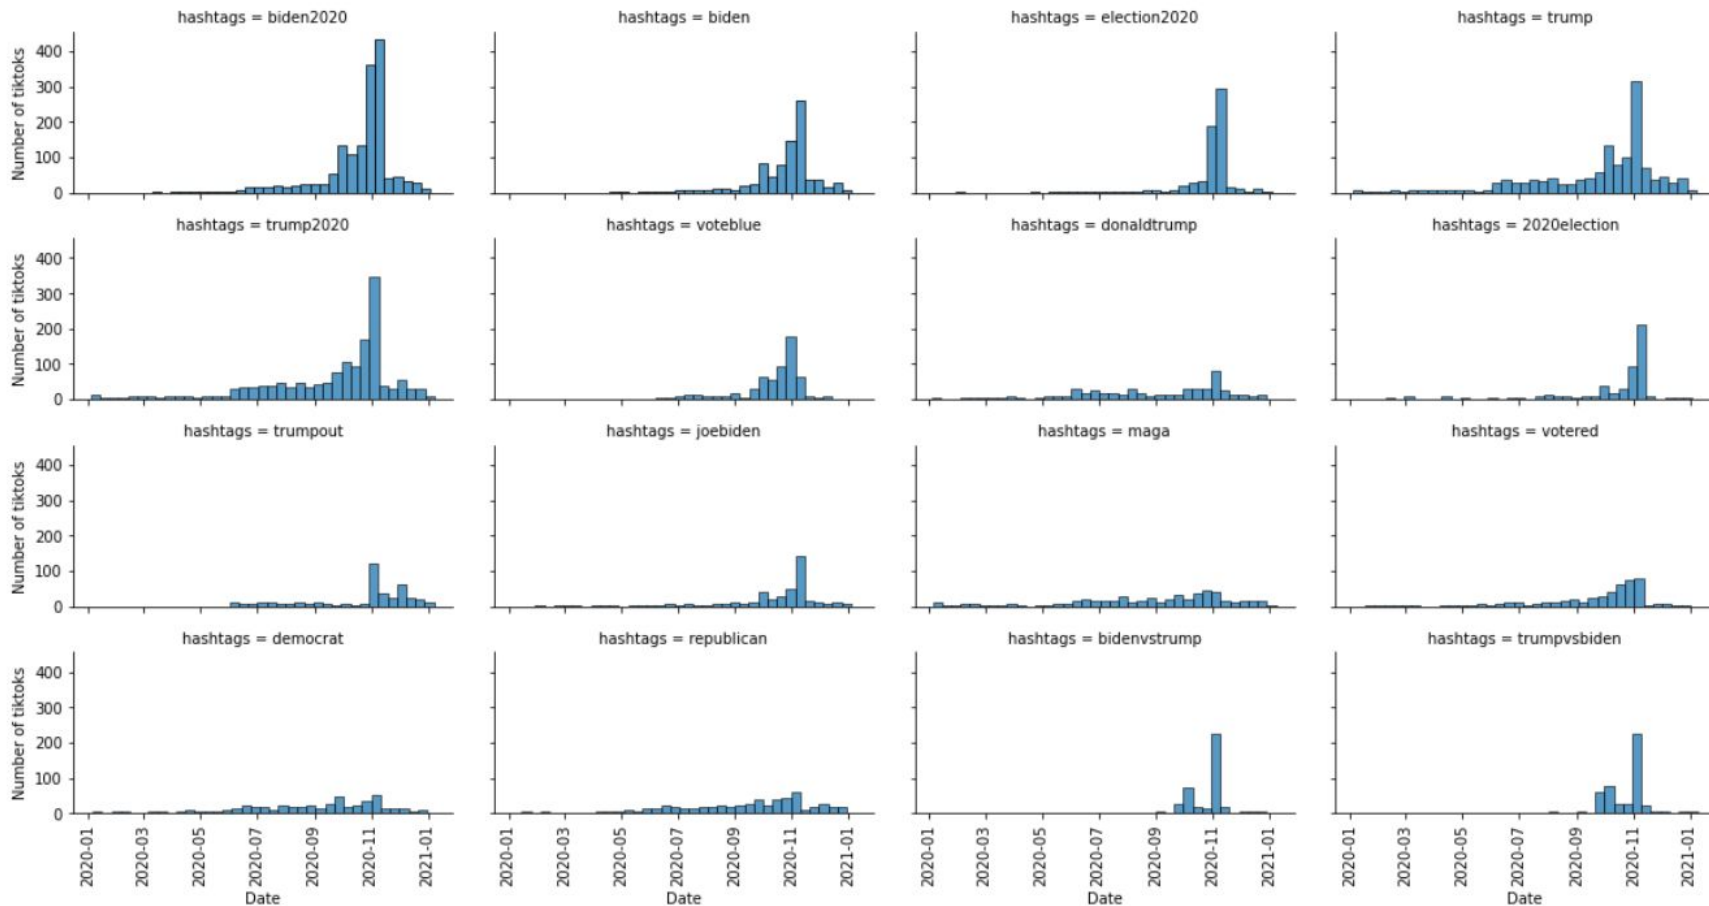

How did the momentum to the election culminate on TikTok over time?

---

# Evolution of Hashtags over time

# Evolution of Hashtags over time

# Evolution of Hashtags over time

# RQ 2

What kind of hashtags are used together and how were they used in the videos?

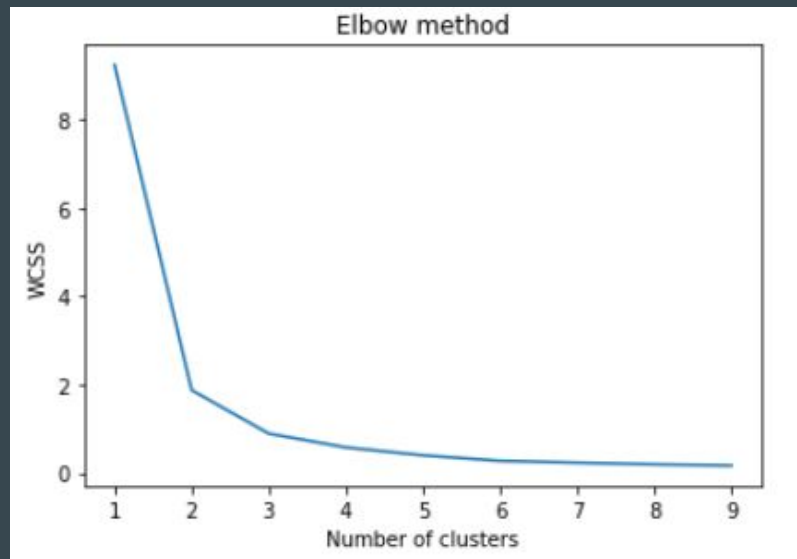

---

# Hashtag Cooccurrences

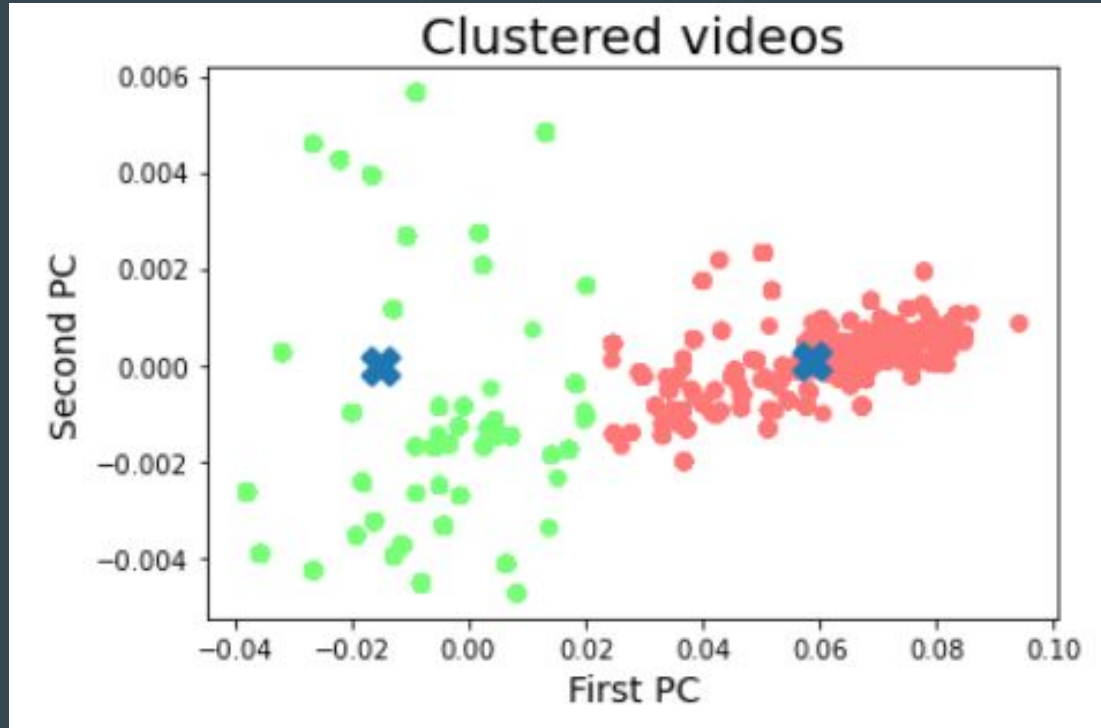

# Clustering of Videos based on Hashtags

- Word2Vec
- Hashtag mapped to a vector
- Video mapped to the mean of its vectors
- K-means clustering on the videos

# Clustering of Videos based on Hashtags

# Hashtag Analysis

- Number of Hashtags per video
- On average users use 5,6,7 hashtags per video and only few videos use more than 10 hashtags.
- What do these hashtags represent?

# Hashtag Analysis

- Hashtag Graph
- Nodes: Hashtags, Edges: Cooccurrence, Edge weights: Cooccurrence count
- Hashtag should have appeared at least 50 times.
- Removed the fyp, xyzbca hashtag as it is used in almost all videos.
- Detect communities using Clauset-Newman-Moore greedy modularity maximization method.
- The algorithm begins with each node in its own community and joins the pair of communities that most increases modularity until no such pair exists and then assign each hashtag a community.

# Hashtag Network

Color: Community

Size: number of other hashtags  
connected

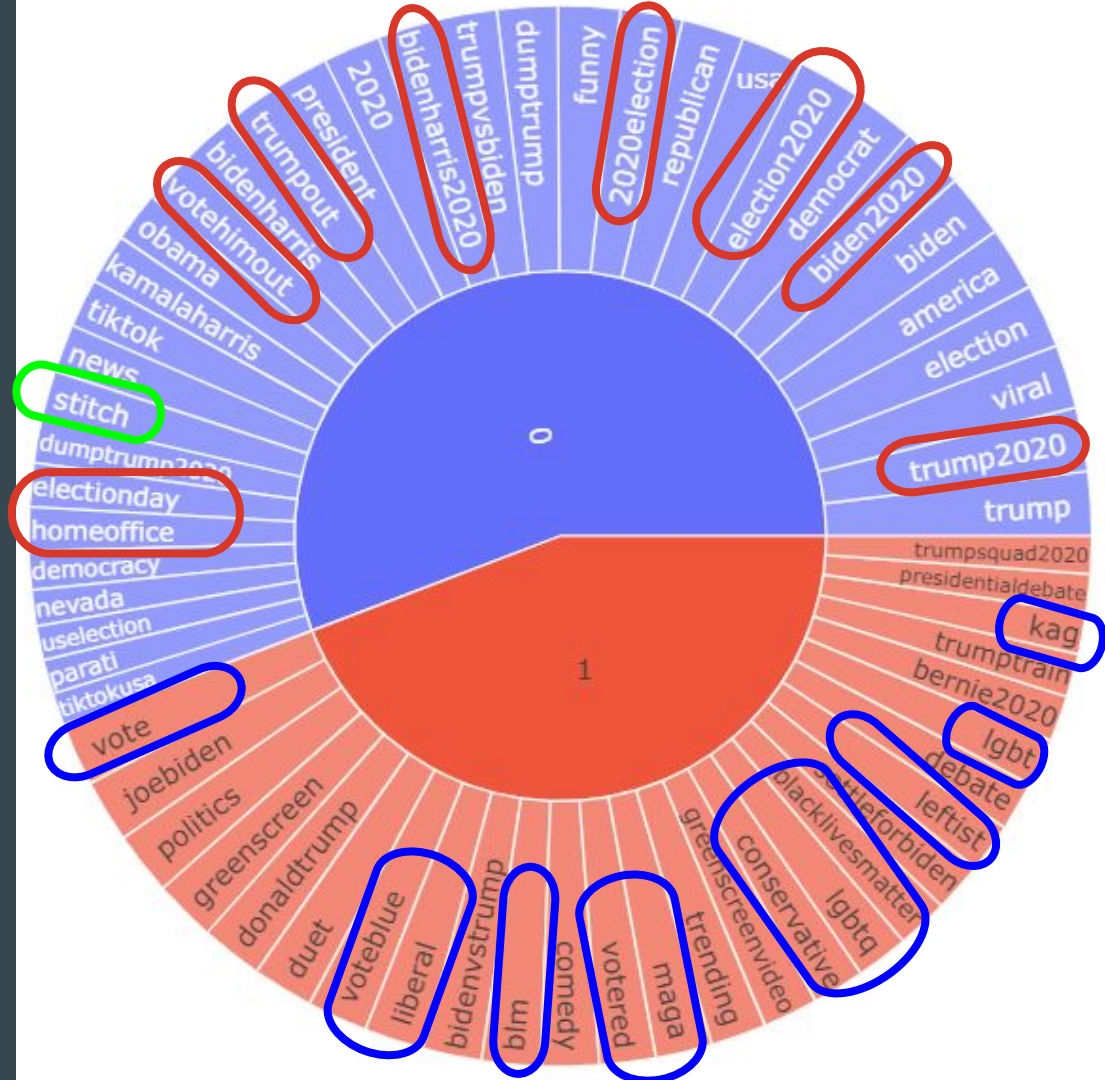

2 communities

# Hashtag Communities

Blue: Seasonal, election related

Red: Associated with a theme

# RQ 3

What are the topics of discussion in the election discourse through TikTok?

---

# Topics discussed on TikTok and the election

- Method : vectorize with TF-IDF
- Calculate pairwise distance between all the tiktoks (cosine similarity)
- Weighted Graph where nodes are tiktoks and edges are distances
- Graph partitioning with *community* library
- Look at the top words to each cluster

# Results

- 15 topics
- Modularity : 0.6

# Conclusion

- How did the momentum to the election culminate on TikTok over time?
  - Around the election
  - Around specific events
- What are the topics of discussion in the election discourse through TikTok?
  - Mentioning the opponents a lot
  - Specific events
  - Discussed from a young perspective
- What kind of hashtags are used and will the hashtags provide a way to clusters the videos into categories?
  - Seasonal or general themes

# Discussion

- Many users do not have the legal age to vote but make political videos
- Gen Z might not be interested in the politics that is about parties, candidates
- But they do want to talk about issues

## Limitations :

- Analysis done on hashtags - not videos
- Did not take into account the popularity of each video

**Thanks !**
